Core Collection en Español

Develop and manage collections for your Spanish-speaking patrons

Are you looking to establish a Spanish-language collection? Do you need help adding to your bilingual storytime titles? NoveList introduces **Core Collection en Español,** a unique tool that provides collection development guidance to librarians seeking to develop and manage collections aimed at Spanish-speaking patrons.

Contact your EBSCO sales representative for more information or to schedule a demo.

Core Collection en Español provides:

★ Impartial, authoritative recommendations for high-quality Spanish and bilingual titles selected by expert librarians.

★ Three levels of recommendations to help you prioritize materials for your library's size and budget.

★ Content that includes titles for readers of all ages with rationales from our advisors, as well as award and dialect guidance when available.
