

Expanded Dynamic Health™

Skills extend point-of-care support for every healthcare professional

To help meet the changing needs of nurses and healthcare professionals, the team behind Dynamic Health has added an extensive set of new, non-acute skills content.

What's included:

Ambulatory: Over 30 skills address the specific needs of patients and procedures in clinics, urgent care centers, and physician offices.

Long Term Care: 47 skills now address the complex needs of residents in Assisted Living Facilities and Skilled Nursing Facilities.

Clinical Assistants: Dynamic Health now offers 51 skills designed to address the unique training needs of clinical Assistants. This new content is tailored to meet support clinical assistants' specific role and is built on the latest best practices to help them excel in their roles.
