

## Preparing Canada's students for success – in school, in college and beyond

The provinces and territories of Canada are committed to helping their students achieve personal and academic success with education programs that teach students to become creative, responsible, actively involved citizens who are prepared for the challenges of today's ever-changing world.

To support classroom instruction, student research and the integration of information and communication technologies in schools across Canada, EBSCO's databases feature reliable, high-quality content from a number of popular and academic sources. These resources cover a vast array of subject areas and support many of the learning outcomes set forth by the Ministries of Education.

### Integration of 21<sup>st</sup> Century Information and Communication Technologies

- Colorful, user-friendly interface (*Explora™*) with advanced search and retrieval options to help students quickly locate relevant resources and get started with research
- Easy access to online resources anytime, anywhere, from any computer or mobile device

### Resources for Developing Multimodal Literacy

- Full-text articles from a variety of source types that
  - facilitate close study of text structures
  - reflect multiple perspectives
  - encourage critical and creative thinking
  - promote intercultural understanding
- Multimedia content, such as maps, graphs, charts, images, audio recordings and videos

### Educator Resources and Tools for Differentiated Instruction

- Curriculum Standards Module that allows educators to browse provincial curriculum frameworks, many of which include recommended search strings for successful content retrieval
- Reading measures to provide estimate of search result's reading difficulty and the approximate reading ability level required for comprehension
- Text-to-speech for HTML articles to help struggling readers or those learning English

In addition, *EBSCOhost™* is the most widely used research platform in academic institutions around the world. Using EBSCO's resources in support of your provincial curriculum will ensure that graduates are well-prepared to excel with projects and research in the university environment.

# The following EBSCO products are a few among many that can support your school's curriculum:
