

The Power of Premium Information

EBSCO for the Technology Industry

EBSCO
www.ebsco.com

It's well known that EBSCO is the information resource for academic institutions around the world.

But did you know that thousands of corporations also turn to EBSCO for scientific, technical, medical and business content?

Who are we?

What do we do?

Provide premium information for the highest levels of research and development

Serve millions of end-users

Develop new and enhance existing products to offer the best experience – hands down

What sets us apart?

Customized content, services and technologies to meet specific information needs

Tools that support research needs via optimal design and cloud deployment

Specialty designed databases to meet your industry-specific needs

Information tools and workflow solutions that grow with your industry and your company's needs

Go Deep in Your Research

Industry-specific databases provide access to vital information to support research and development.

Explore a comprehensive collection of scientific, technical and medical content

STM Source™

WHO CAN BENEFIT

Researchers

Provide recent evidence-based content on a variety of subjects. Help R&D develop a state of the art research landscape.

Product Management

Offer cutting-edge serial content and proceedings from top industry conferences in innovation management, requirements protocol, and development methodologies to guide your PM through every phase of the product life cycle.

Engineers

Use thousands of documents and diagrams in every facet of engineering to ensure best practices throughout engineering projects and facilitate decision engineering at the organizational level.

CONTENT THEY CAN USE

Journals

Conference Proceedings

Diagrams

Reports

And More...

Access top and unique research literature
Inspec[®]

Understand Current Research Trends

Advance innovation

Created by the *Institution of Engineering and Technology*, this leading database provides abstracts and indexing to the world's scientific and technical papers in:

- Physics
- Electrical engineering
- Electronics
- Communications
- Computing
- Information technology
- Manufacturing
- Production
- Mechanical engineering
- And More...

Arm your engineers

Engineering Source™

Ensure every engineer at any level has access to field-related information.

Whether they are in R&D or product management, accessing best practices, benchmarks and current industry content means your engineers can stay ahead of the competition.

Engineering Source provides unmatched indexing and coverage for engineering journals, magazines, trade publications and more...

Applied Science & Technology Source™

Understand traditional engineering challenges.

Access a variety of content in an array of subjects including applied mathematics, computer databases and software, new technology and more.

Applied Science & Technology Source covers the full spectrum of R&D in the applied sciences and computing disciplines.

EXAMPLE OF TITLES

Business and Market Research

Take the pulse of your industry, keep current with news and information and find the next big opportunity.

Take the pulse of the technology industry

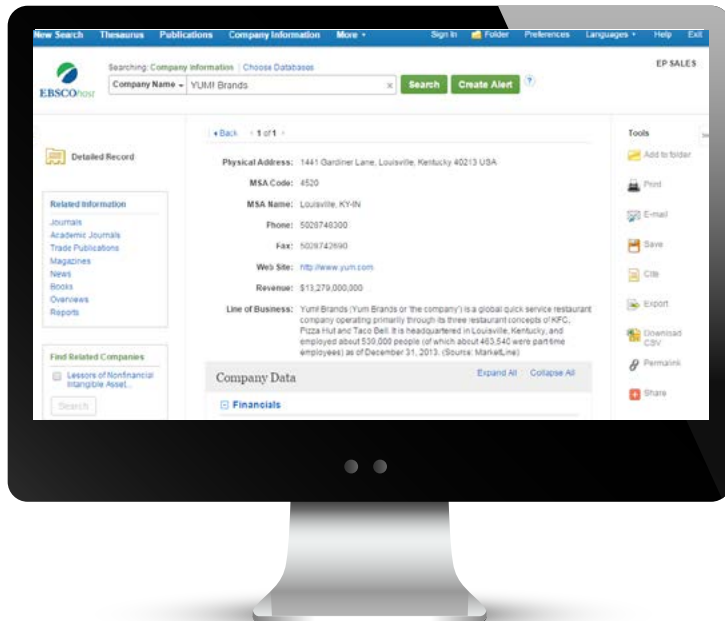

Business Source® Corporate Plus™

Stay ahead of the competition with the most comprehensive collection of market information today. Get relevant and actionable information including company information, business content and current news.
