How to Win
the Medical Research Game

For researchers and clinicians, conducting research is like a game of chance. From navigating different platforms or clunky research portals, to authentication challenges, to sifting through search results to find the right information – these challenges may impede successful research and the value of your medical library.

Stacks

Create a best-in-class research portal.

Don't Roll the Dice on Your Research Portal.

Manage and create an effective research portal through a user friendly web-based content management system (CMS).

Save time in creating your portal with a turnkey and responsive CMS providing an optimal experience across devices.

Never worry about security issues, expensive upgrades or hosting by utilizing the Stacks subscription service benefits.

EDS Discovery Health™
The Medical Research Platform

Quickly connect researchers to relevant information – every time.

Lead the Way to Relevant Content

Remove frustration from research with rich metadata, direct full-text linking and comprehensive filtering capabilities.

Combine your collection along with smart search technology to provide an optimal research experience.

Provide fast, easy access to relevant information through a single search bar.

The **EBSCO** and **Partner SaaS suite** make the most out of your library resources, connects users to the world's leading medical publishers and makes research a seamless experience.

OpenAthens

Provide a seamless research experience.

Secure Access to Essential Information

Allow any user to access any resource with a single sign-on from any location.

Create a more secure and personalized research experience for users.

Enables mobile access, allowing users to reach the information they need.
