

*Nursing Reference
Center™ Plus*

A Critical Access Hospital
MUST HAVE

"Our nurses have the information that they need to provide better care. [They] are more informed and better educated than they were before we had *Nursing Reference Center Plus*."

- Kim Tschacher, Clinical Nurse Educator, Box Butte General Hospital, a Rural Critical-Access Hospital in Nebraska

OPTIMIZE YOUR

Return on Investment

When evaluating nursing information resources, it is important to consider the return on investment (ROI). Finding a resources that meets not just one but many of the diverse needs of your nursing staff is the key to maximizing your ROI. With *Nursing Reference Center Plus*, the premier evidence-based information resource designed by nurses for nurses, you can do just that.

READ ON TO LEARN HOW.

SUPPORT

Nurse Education

Nursing Reference Center Plus is committed to promoting evidence-based nursing practice. With thousands of skills and accompanying competency checklists, *Nursing Reference Center Plus* provides leadership with an effective way of evaluating and documenting nurses' skills, ensuring their staff has the competence and confidence to achieve clinical excellence.

Additionally, *Nursing Reference Center Plus* offers complimentary access to over 2,500 high-quality ANCC (American Nurses Credentialing Center) and IACET (International Association for Continuing Education and Training) accredited continuing education modules, fostering a culture of lifelong learning and professional development.

PROVIDE QUICK AND TRUSTED

Answers at the Point of Care

Your nurses' time is a prized commodity, and in order to provide the best patient care possible they need to be able to find the right answers to their clinical questions fast. Designed by a world-class team of nurses and clinical experts, *Nursing Reference Center Plus*' content combines the latest clinical evidence with a format that maps to the nursing workflow, supplying users with fast and easy access to the critical information needed at the point of care.

IMPROVE

Patient Education

Education is crucial when it comes to ensuring patients are engaged and compliant with their care plans. *Nursing Reference Center Plus* makes patient education easy with over 8,000 easily digestible handouts covering diseases and conditions, medications and procedures. Our patient education materials are available in both English and Spanish and can be customized to include your hospital's branding, personalized care notes and signature fields for patient acknowledgment of key information.

STREAMLINE

the Policy and Procedure Process

While policies and SOPs are required for any hospital to safeguard continuity of care, their creation and upkeep can be costly, time consuming and laborious. With *Nursing Reference Center Plus*, you can link directly from your online policy and procedure manual to our evidence-based content, saving time, money and resources on upkeep. Linking directly to content found in *Nursing Reference Center Plus* also allows you to rest assured that the information reflects the most current evidence.

DON'T TAKE OUR WORD FOR IT

Box Butte General Hospital supports the diverse needs of its nurses with EBSCO Health's *Nursing Reference Center Plus*.

Located in Alliance, Nebraska, Box Butte General Hospital is a rural, critical-access hospital with 25 beds for all patient types and a staff of more than 250 employees providing emergency care and a variety of inpatient and outpatient services. These services include general and orthopedic surgery, medical imaging, dialysis, infusion, rehabilitation and much more.

In 2015, Box Butte General Hospital began a journey to grow its nursing information resources and supply nurses with evidence-based information at the point of care. According to Clinical Nurse Educator Kim Tschacher, Box Butte had long used print reference books alone to support nursing practice, patient education, and the creation of policies and procedures. Knowing how quickly evidence changes, Box Butte sought to find a better way with *Nursing Reference Center Plus*.
