CINAHL® Plus, an essential tool for nursing research, provides indexing of the top nursing and allied health literature available, including nursing journals and publications from the National League for Nursing and the American Nurses Association. The expanded version of the CINAHL® index, CINAHL Plus provides an even wider scope of nursing and allied health journals, as well as a higher number of records, full text and cited references.

CINAHL Plus covers a wide range of topics including nursing, biomedicine, health sciences librarianship, alternative/complementary medicine, consumer health and 17 allied health disciplines. In addition, this database provides access to health care books, nursing dissertations, selected conference proceedings, standards of practice, audiovisuals, book chapters and more.

Additional Features:

- Provides an easy-to-use interface with basic and advanced search features and searchable cited references
- Subject Headings help users effectively search and retrieve information and follow the structure of the Medical Subject Headings (MeSH) used by the National Library of Medicine
- Provides 40 active full-text, non-open access journals
- Contains more than 7.6 million records
- Offers indexing for more than 5,500 journals dating back to 1937
- Includes author affiliations
Searching CINAHL Plus

1. **Keyword Search**
Enter a keyword or phrase to search

2. **Suggest Subject Terms**
Search CINAHL Headings
