# Get Ready For...

A Transformation in Clinical Decision Support with DynaMed®

Coming soon, a completely reimagined DynaMed will combine the highest quality evidence-based information with a user-friendly, personalized experience supported by powerful search technology – allowing you to find answers to your clinical question at the point of care with unprecedented speed and accuracy.

What you should know:

①

On August 21, 2019, you will begin seeing the newly reimagined DynaMed.

②

You will be able to access DynaMed the same way you always have.

③

If you are currently earning CME/CE in DynaMed, please be sure to submit all of your unclaimed credits prior to August 14, 2019. Claimed CME/CE credits will automatically transfer over to the new platform; however, unclaimed credits will not transfer over.

Improving Patient Outcomes
by Transforming Clinical Decision Support

Ensure Confidence in Practice

In order to provide exceptional care, you must have the utmost confidence in the information you use to diagnose and manage patients. DynaMed ensures peace of mind in the clinical decision-making process with content based on a rigorous, seven-step evidence-based methodology, robust systematic literature surveillance with daily updates, and clinical expertise that both complements and clarifies the evidence.

Improve Time to Answer

When you have a question at the point of care, you need an answer fast. Utilizing a completely reimagined, highly intuitive user experience supported by powerful search technology, DynaMed quickly identifies and surfaces the right content. Key takeaways, targeted synopses, and clearly defined recommendations maximize efficiency, reducing time to answer with information that is quickly accessible and actionable.

Create an Individual Experience

In a world where personalization is highly valued, you expect your decision support resource to remember your preferences and anticipate your interests. Starting from the homepage, you can quickly reference recent practice-changing updates and content relevant to your expertise. Additionally, DynaMed offers clinicians the opportunity to affiliate with multiple organizations, allowing for easy access at any site, and continuous tracking of DynaMed usage for CME and MOC credits.

Provide Anytime, Anywhere Access

In order for a decision support tool to be embraced at the point of care, it must be able to seamlessly integrate into the clinical workflow. DynaMed anticipates and responds to the needs of the time-crunched clinician with features including EHR integration, on-the-go access via a convenient mobile app and streamlined single sign-on capabilities.
