

Fast Answers to Clinical Questions On-The-Go

The DynaMed and Micromedex Mobile App Provides Anytime, Anywhere Access to the Latest Clinical Evidence

Get to Know the DynaMed and Micromedex Mobile App

Free with *DynaMed®* and *Micromedex® with Watson™* subscriptions the DynaMed and Micromedex mobile app provides you with access to all the robust, evidence-based content of *DynaMed* and *Micromedex with Watson* on any mobile device. The DynaMed and Micromedex mobile app is available for both iOS and Android devices. It allows you to find fast answers to clinical questions, check for drug interactions and IV compatibility, earn CME and MOC for all your usage of the solution and more. In a hurry? You can utilize the convenient voice search functionality to speak your query rather than taking the time to type it and the AI-enabled Watson Assistant utilizes natural language processing to accelerate your access to drug information. All these unique features make it easier than ever for you to access the critical decision support you need anytime, anywhere.

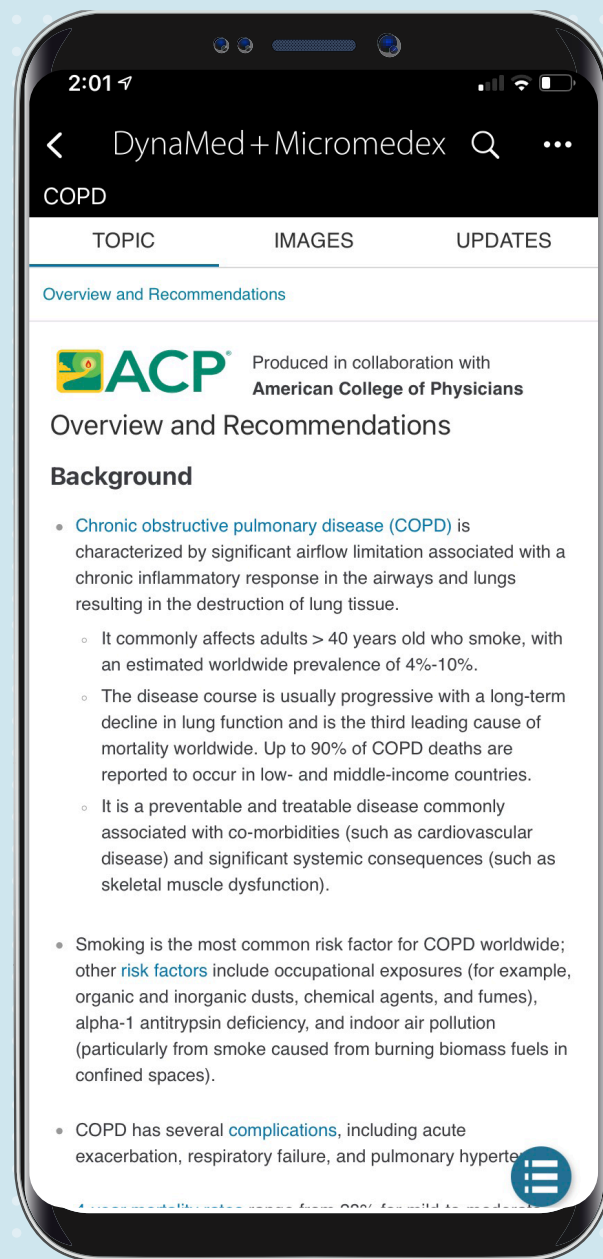

Unlock the Full Power of DynaMed and Micromedex with Watson with a Personal User Account

Sign up today for a personal user account to access *DynaMed and Micromedex with Watson* on-the-go.
