

Dynamic Health[™] Makes Earning Continuing Education Contact Hours Easier Than Ever

Your time is valuable. Wouldn't it be great if earning contact hours was seamlessly integrated into your daily workflow? With *Dynamic Health* it can be. New personalization features allow you to effortlessly earn contact hours every time you use *Dynamic Health* to answer a clinical question. Simply create a personal user account and it will automatically track contact hours for all your *Dynamic Health* usage. Credits can be claimed by answering a few simple practice and knowledge-based questions at your leisure.

***Dynamic Health* CEs...**

- Are accredited by the American Nurses Credentialing Center's Commission on Accreditation
- Can be earned on both the web and mobile applications
- Foster a culture of lifelong learning and critical thinking
- Allow you to easily earn contact hours throughout the course of your daily workflow

Start Earning CEs by Creating a Personal User Account Today:

1. Access *Dynamic Health* from your institution and click the person icon at the top right of the screen.
2. A pop-out will appear. Click the “Register Now” link.
3. The link will take you to the Personal Account registration page. Complete the form and click the “Register” button. After clicking “Register”, your personal account is created. **Note:** Once your account is created, it is important to sign in with your credentials to ensure your new account is affiliated with your institution.
4. The first time you log in, you are prompted to read the Personal Data Retention and Usage policy. Select the “Yes” button to consent to the collection of your personalized data and click “Continue” to finish setting up your account. **Note:** This will only appear the first time you register or if this policy is changed at any time in future.
5. You can now access *Dynamic Health* on any device by visiting www.dynahealth.com and logging in using these credentials.

The screenshot shows the Dynamic Health homepage. At the top, there is a navigation bar with the logo, a user icon, and a CE 23.1 ticker. Below the navigation bar is a banner with the text "Confidence in Care" and "Evidence-based support and training for nurses and health professionals." A search bar is located below the banner. The main content area is divided into two sections: "My CE" and "Explore Resources". The "My CE" section displays "Available Contact Hours" as 23.1 hr and "Claimed Contact Hours" as 1.8 hr, with a "View More" button. The "Explore Resources" section features two categories: "DISEASES & CONDITIONS" and "SIGNS & SYMPTOMS", each with a representative image and a right-pointing arrow. A "Feedback" button is located at the bottom right of the page.

1

Dynamic Health makes it easy to see the amount of CE credits you've accrued right from the homepage.

The screenshot shows the "Continuing Education" page. The header includes the logo, user icon, CE 23.1 ticker, and a search icon. The main heading is "Continuing Education" with a sub-heading "Earn ANCC contact hours for using Dynamic Health. Learn More". Below this is a "AVAILABLE CE (23.1 HR)" section with a settings gear icon. A "Select All" checkbox is present. A dropdown menu is set to "February 2021". The list of available CE credits includes: "11 Feb 2021 Performing One-Person Infant Cardiopulmonary Resuscitation 0.1 Contact Hours", "11 Feb 2021 Measles 0.1 Contact Hours", and "11 Feb 2021 Chest Tube Care". A "Prepare" button is at the bottom of the list. A "Feedback" button is at the bottom right of the page.

2

When you click the CE ticker at the top right of your screen, it will take you to the Continuing Education page and a running chronological list of your available CE credits.

The screenshot shows the "Application in Practice" page. The header includes the logo, user icon, CE 23.1 ticker, and a search icon. The main heading is "Application in Practice" with a sub-heading "Step 1 of 2: Please answer the following True or False questions." Below this is a section titled "Performing One-Person Infant Cardiopulmonary Resuscitation". The first question is: "1. The most recently released guidelines from the American Heart Association (AHA) maintain prompt initiation and proper technique during CPR are the most important factors in improving survival following cardiopulmonary arrest." with radio buttons for "True" (selected) and "False". The second question is: "2. I agree that completing this topic will improve my practice and the nursing care I give." with radio buttons for "True" (selected) and "False". At the bottom, there are "Continue" and "Cancel" buttons. A footer contains links for "Help", "Disclaimer", "Privacy Policy", and "Terms of Use". A "Feedback" button is at the bottom right of the page.
