EBSCO Corporate Solutions provides premium content and resources to help employees advance their research and make informed decisions. Our wide variety of products work together to provide a seamless and customized experience for users.

- **Databases**
- **Expert Subject Databases**
- **Software as a Service**
- **E-books and Journals**
Corporate research requires reliable and trustworthy resources. With EBSCO’s proprietary databases, you will find premium information for all industries and departments – from engineering, to biotechnology, to competitive intelligence.

**Applied Science & Technology Source™ Ultimate**
Find full-text and indexed content that covers the full spectrum of the applied sciences and computing disciplines – from acoustics to aeronautics, neural networks to nuclear engineering.

**Biotechnology Source™**
Gain the competitive edge in your industry with Biotechnology Source, the most robust research tool on the market today. This single-search platform gives you access to thousands of full-text journals, as well as many leading industry publications and unique titles for biotechnology and pharmaceutical research.

**Business Source® Corporate Plus**
Support your company’s business research with Business Source Corporate Plus. This customizable database offers the most curated full-text business information for today’s companies, including business magazines, journals and trade publications from top publishers, plus critical news content with ongoing updates.

**Engineering Source™**
Support engineering professionals and researchers with a database that provides unmatched indexing and full-text coverage for engineering journals, magazines and trade publications across all engineering disciplines including biomedical, civil, electrical, mechanical, environmental and software.

**STM Source™**
Drive innovation in your industry with the most complete full-text database designed specifically for research and development (R&D) teams, product management and engineers. Access thousands of journals, magazines, reports covering all industries including agriculture, energy, biotechnology, manufacturing and engineering.
Databases Created by Subject Specialists

EBSCO partners with top organizations across disciplines whose experts in the field curate and classify the most relevant material for researchers. Try them on EBSCOhost® or EBSCO Discovery Service™ for targeted results with links to related content in your collection.

**BIOSIS Previews®**
Produced by Clarivate Analytics, the database covers pre-clinical and experimental research, methods and instrumentation, animal studies, and more.

**FSTA® – Food Science and Technology Abstracts**
This extensive specialized database covers scientific and technological literature relating to food, drink and nutrition. It is managed by a team of expert scientists within IFIS, a not-for-profit organization with an ongoing commitment to learning and development and a reputation for scientific integrity, accuracy and excellence.

**Inspec®**
Created by the Institution of Engineering and Technology, this leading bibliographic database provides abstracts and indexing to the world's scientific and technical papers in physics, electrical engineering, electronics, communications, control engineering, computing, information technology, manufacturing, production and mechanical engineering.

**International Pharmaceutical Abstracts**
Produced by Clarivate Analytics, this comprehensive database provides indexing and abstracts for pharmaceutical and medical journals published worldwide. It is essential to anyone interested in keeping abreast of today's health-related drug literature.

**Petroleum Abstracts TULSA® Database**
Stay current with Petroleum Abstracts TULSA Database, the petroleum industry's preeminent information resource for coverage of exploration and production-related scientific and technical knowledge.

**Polymer Library**
This is the world's largest abstracts database dedicated to plastics, rubber, polymer composites and adhesives. Compiled and written by the expert team at WTI-Frankfurt digital, this database contains information from journals, conference proceedings, books and reports.

Software as a Service

The SaaS Suite for research is designed to bring together the best in content, technology and user experience to transform the way research gets done.

**Stacks Research Portal**
Build a scalable and customizable single-point portal to make research more streamlined and intuitive. The Stacks portal helps to increase usage of your library’s content, cultivates collaboration within teams and allows you to create a specific user interface based on the department, and the best part? You can build, create and maintain it all on your own without IT.

**EBSCO Discovery Service™**
Direct connection to the most relevant research content is what matters most to users. **EBSCO Discovery Service** is an advanced discovery search platform that delivers the right content – every time, no matter where research is being conducted.

**OpenAthens**
OpenAthens provides unrivaled single sign-on technology, simplifying access to your organization’s electronic resources. With a single username and password, your users get access to all your subscribed resources, whenever they want and wherever they are. OpenAthens technology is based on SAML single sign-on standards which transmits user data in a very secure manner.
**E-books and Journals**

These resources are the perfect complement to EBSCO Corporate Solutions databases – providing users with the full spectrum of corporate research content.

**EBSCO eBooks™**

*EBSCO eBooks* offers a wide variety of e-books for use in the corporate setting with topics ranging from marketing, finance, supply chain management, and entrepreneurship to career growth, personal development, communication, and networking so there’s something for everyone. Ask an EBSCO representative about the growing collection of DRM-free e-books that offer a flexible, easy to use experience with no sign-in required; no restrictions on printing, saving or downloading; and no limits on compatible devices or apps.

**Flipster® Digital Magazines**

Business magazines are a reliable source of news and information and provide a trustworthy alternative to a Google search. *Flipster* delivers more than 1,500 popular magazines including top picks like *TIME*, *Bloomberg Businessweek*, *Fast Company*, *Money*, and more that employees can access 24/7 from their laptops or mobile devices. Plus, *Flipster* offers stress-reducing resources such as adult coloring books that employees will find relaxing, enjoyable and a welcome break from workplace stress.

**EBSCO Audiobooks™**

Audiobooks are the fastest growing segment of the publishing industry, and EBSCO is proud to offer your institution access to more than 120,000 selections from top authors like Michelle Obama and Kamala Harris on key topics such as leadership, team building and more. Audiobooks allow busy professionals to gain a new perspective or delve deeper into an industry subset while multi-tasking and commuting. Ask an EBSCO representative about our new audiobook collection for Business Professionals!

**Journal Subscription Services**

EBSCO provides subscription management services for e-journals, e-packages, magazines and more. EBSCO maintains the most complete and accurate title file in the industry with more than 360,000 titles from more than 98,000 publishers worldwide. *EBSCONET® Subscription Management* simplifies each step of the subscription management process – title selection, ordering, e-access, activation, claims, renewals, and evaluation – all within a single platform.
EBSCO Corporate Solutions offers the tools and resources to meet the informational needs of any organization.
