**EBSCO** Discovery Service Health™

# Making Medical Resources Work-for All

Offer an effective research experience, provide quick access to relevant information, and anticipate user needs with *EBSCO Discovery Service Health*™. No matter the department or level of user, EDS Health offers something for everyone.

### Physicians

Help physicians filter "information noise." EDS Health delivers relevant results from top medical journals, and tools like PubMed, *DynaMed Plus*° and UpToDate° can all be searched at once, leading physicians quickly to the right information.

## Nurses and Allied Health Professionals

EDS Health is a one-stop shop for nurses and allied health professionals. EDS Health's database placard feature allows users to search within a specific resource like The Cochrane Library, or point of care tool such as CINAHL Complete™ or Nursing Reference Center Plus™.

### **Medical Research**

Superior searching, precision in retrieving relevant results and modern linking to full text means that medical researchers will connect with the best information for their research.

# Medical Library

Increase use of the medical library's collection by providing seamless access to resources – even those that were once difficult to find.
