This may include a unique identifier (unconnected to an individual's Personal Information) and related analytics and usage information that we use to track usage of our Services, track trends in our Services, administer the Services, and improve our users' experience.

3. Note About HIPAA Compliance: Certain products and services made available by DynaMed, LLC (“HIPAA-compliant Services”) are designed and intended to collect or process protected health information on behalf of covered entities, and are subject to the requirements of the Health Insurance Portability and Accountability Act of 1996, and its associated regulations (HIPAA). This Privacy Policy does not apply to, or restrict our handling of protected health information that may be processed by any HIPAA-compliant Services that you are using. Instead, our handling of protected health information is governed by a separate agreement, including a business associate agreement between us and the customer that has licensed the HIPAA-compliant Services. B. How Do We Collect the Information?

The categories of sources from which we collect Personal Information are described in the table above.

We only collect and use Personal Information when you voluntarily provide it to us or when an institutional customer provides it to us in connection with its method of authenticating users for access to our Services, with the exception of your IP address, geolocation, and certain device information which may be automatically captured when you access our Services.

If you provide us Personal Information about others, or if others give us your Personal Information, we will only use that information for the specific reason for which it was provided to us.

In order to use some of the unique functions within our Services, a user must first complete a registration form or provide an email address that will require the user’s disclosure of limited Personal Information. Such disclosure is strictly voluntary.

Because of how email communication works, you will have to disclose an email address to us if you choose to contact us or communicate with us by email.

We automatically collect non-Personal Information generated from your use of our Services. We use this non-Personal Information in the aggregate. We do not combine these types of non-Personal Information with Personal Information.

Cookies and Similar Technologies: For information about the cookies and other tracking technologies used by our Services and how to manage your settings for these cookies and technologies, please visit our [Cookie Policy](#).

C. How Do We Use the Information?

The business or commercial purpose(s) for which Personal Information is collected is described in the table above.

We use the Personal Information we collect for the limited purposes of processing your transactions, establishing and/or verifying a person’s or account holder’s identity, customer service, improving and

customizing our Services and their content, authorization, content processing, content classification, and providing you with information concerning our Services. We will retain this information for as long as your account is active or as needed to provide you Services, comply with our legal obligations, resolve disputes, and enforce our agreements.

For example, our EBSCOhost Service employs a personalization feature that requires completion of a registration form before a user can use that feature. The personalization feature of EBSCOhost is a powerful tool that provides users with the means to create and save histories of searches they have conducted. We believe the personalization feature is a useful tool that will enhance the user's experience with the Service, but it does require the user to provide Personal Information to us.

We use the non-Personal Information we collect to administer the Services, improve access to the Services, perform diagnostics, collect content-specific usage statistics, protect the Services and their content from inappropriate use, and improve the user's experience.

We may use the Personal Information and non-Personal Information we collect by sharing it with third-party agents, vendors, contractors, partners, or content providers of EBSCO Information Services (collectively, "Service Providers") for purposes of managing purchases of our products and services, providing access to our products and services, servicing our systems, and obtaining support services for our businesses. We are not in the business of selling Personal Information to third-parties or Service Providers and will share it with Service Providers only as we describe in this Privacy Policy. In situations where we share Personal Information with Service Providers, we ensure access is granted to the Service Providers only upon the condition that the Personal Information is kept confidential and is used only for carrying out the services these Service Providers are performing for EBSCO Information Services. As part of making the determination whether we will share Personal Information with Service providers, we will obtain assurances that they will appropriately protect and maintain the confidentiality of Personal Information consistent with this Privacy Policy and as required by applicable law.

The Personal Information we collect from you may be transferred to, and processed in, countries other than the country in which you live. These countries may have data protection laws that are different than the laws of your country. Specifically, the servers we use to provide our Services are located in the United States. This means that when we collect your Personal Information, we may process it in the United States or the country where you live. However, when we process your Personal Information, irrelevant of its processing location, we take appropriate measures, as discussed below, to ensure that your Personal Information remains protected in accordance with this Privacy Policy.

We may share your usage data related to our Services with our affiliates and certain Service Providers for purposes of providing or improving our Services. We will not disclose any information about your usage data related to our Services to unaffiliated third-parties, except as necessary to provide our Services, enhance the product experience, service the legal agreement between us and your employer or affiliated institution under which you are provided access to our Services, to enforce the terms of use, to meet our contractual obligations to report aggregated usage data to content providers, or as required by law.

We also reserve the right to disclose your Personal Information if we are required to do so by law, or in the good faith belief that disclosure of the information is reasonably necessary to comply with legal process, and to the extent permitted by applicable local law, to respond to claims, or to protect or advance the rights, property, safety, or well-being of our company, our employees, customers, or the public.

We will not use your Personal Information for automated-decision making.

In the unlikely event that all or substantially all of the assets of EBSCO Information Services or any of its applicable subsidiaries are acquired, customer information, which may include Personal Information, may be one of the transferred assets unless restricted by applicable local law, in which case the acquiring entity will be subject to the same commitments for such customer information.

D. What is Our Legal Basis for Collecting and Using Personal Information?

Our legal basis for collecting and using the Personal Information described above will depend on the Personal Information concerned and the specific context in which we collect it.

However, we will normally collect Personal Information from you only:

- where we need the Personal Information to perform a contract with you or your organization;
- where the processing is in our legitimate interests and not overridden by your data protection interests or fundamental rights and freedoms; or
- where we have your consent to do so.

In some cases, we may also have a legal obligation to collect Personal Information from you or may otherwise need the Personal Information to protect your vital interests or those of another person.

If we ask you to provide Personal Information to comply with a legal requirement or to provide the Services or a feature of the Services pursuant to a contract with your institution, we will make this clear at the relevant time and advise you whether the provision of your Personal Information is mandatory or not (as well as of the possible impact if you do not provide your Personal Information).

Similarly, if we collect and use your Personal Information in reliance on our legitimate interests (or those of any third party), we will make clear to you at the relevant time what those legitimate interests are.

If you have questions about or need further information concerning the legal basis on which we collect and use your Personal Information, please contact us using the contact information provided below.

E. How Do We Secure Personal Information?

EBSCO Information Services has taken appropriate technical and organizational measures to ensure that Personal Information we have collected or will collect in the future is secure. For

C. How Do We Use the Information?

The business or commercial purpose(s) for which Personal Information is collected is described in the table above.

We use the Personal Information we collect for limited internal purposes that may include, but are not limited to, processing your transactions, establishing and/or verifying a person's or account holder's identity, customer service, improving and customizing our Websites and their content, development of products and services, content processing, content classification, and providing you with information concerning our products and services. We will retain this information for as long as it is needed for the purposes for which it was collected, and/or to comply with our legal obligations, resolve disputes, and enforce our agreements.

We use the non-Personal Information we collect to administer the Websites, perform diagnostics, collect content-specific usage statistics, protect the Websites and their content from inappropriate use, and improve the user's experience.

We may use the Personal Information and non-Personal Information we collect by sharing it with third party agents, vendors, contractors, partners, or content providers of EBSCO Information Services (collectively, "Service Providers") for purposes of managing purchases of our products and services, servicing our systems, and obtaining support services for our businesses. We are not in the business of selling Personal Information to third parties or Service Providers and will share it with Service Providers only as we describe in this Privacy Policy. In situations where we share Personal Information with Service Providers, we ensure access is granted to the Service Providers only upon the condition that the Personal Information is kept confidential and is used only for carrying out the services these Service Providers are performing for EBSCO Information Services. As part of making that determination whether we will share Personal Information with Service Providers, we will obtain assurances that they will appropriately protect and maintain the confidentiality of Personal Information consistent with this Privacy Policy and as required by applicable law.

The Personal Information we collect from you may be transferred to, and processed in, countries other than the country in which you live. These countries may have data protection laws that are

different than the laws of your country. Specifically, the servers we use to provide our Services are located in the United States. This means that when we collect your Personal Information, we may process it in the United States or the country where you live. However, when we process your Personal Information, irrelevant of its processing location, we take appropriate measures, as discussed below, to ensure that your Personal Information remains protected in accordance with this Privacy Policy.

We may share your usage data related to our Websites with our affiliates and certain Service Providers for purposes of providing or improving our Websites. We will not disclose any information about your usage data related to our Websites to unaffiliated third-parties, except as necessary to enhance the website experience, to enforce the terms of use, or as required by law.

We also reserve the right to disclose your Personal Information if we are required to do so by law, or in the good faith belief that disclosure of the information is reasonably necessary to comply with legal process, and to the extent permitted by local law, to respond to claims, or to protect or advance the rights, property, safety, or well-being of our company, our employees, customers, or the public.

We will not use your Personal Information for automated-decision making.

In the unlikely event that all or substantially all of the assets of EBSCO Information Services or any of its applicable subsidiaries are acquired, customer information, which may include Personal Information, may be one of the transferred assets unless restricted by applicable local law, in which case the acquiring entity will be subject to the same commitments for such customer information.

D. What is Our Legal Basis for Collecting and Using Personal Information?

Our legal basis for collecting and using the Personal Information described above will depend on the Personal Information concerned and the specific context in which we collect it.

However, we will normally collect Personal Information from you only:

- where we need the Personal Information to perform a contract with you or your organization;
- where the processing is in our legitimate interests and not overridden by your data protection interests or fundamental rights and freedoms; or
- where we have your consent to do so.

In some cases, we may also have a legal obligation to collect Personal Information from you or may otherwise need the Personal Information to protect your vital interests or those of another person.

If we ask you to provide Personal Information to comply with a legal requirement or to perform a contract, we will make this clear at the relevant time and advise you whether the provision of your Personal Information is mandatory or not (as well as of the possible impact if you do not provide your Personal Information).

Similarly, if we collect and use your Personal Information in reliance on our legitimate interests (or those of any third party), we will make clear to you at the relevant time what those legitimate interests are.

If you have questions about or need further information concerning the legal basis on which we collect and use your Personal Information, please contact us using the contact information provided below.
