

GOBI[®] Library Solutions

E-Book and Print Book Services

For more than 50 years, GOBI Library Solutions has been the global leader in meeting the acquisition, collection development and technical service needs of research and scholarly libraries and consortia. By partnering with publishers and content aggregators, GOBI offers the most comprehensive integrated digital and print acquisition and fulfillment services in the industry. Whatever your collection development goals are, GOBI Library Solutions can help.

Integrated Approval Plans

Guarantee newly published titles are delivered to your library or opt in to get notifications of matching titles and choose when and how you want to order. GOBI offers four types of plans: ePreferred, print preferred, electronic only, or print only.

Continuations

Manage your serial publications with ease. Purchase numbered and unnumbered monographic series, sets in progress, annuals, non-subscription serials and proceedings.

E-Books in Minutes

E-books are available within minutes after ordering from a growing list of partners, including *EBSCO eBooks™*, ProQuest Ebook Central, Taylor & Francis, IGI Global and more.

Award Plan Programs

Enhance your core collection of award-winning children's and adult titles. Prestigious awards we cover include National Book Awards, Pulitzer Prizes in Letters, Newbery and Caldecott.

Opening Day and Retrospective Collections

Strengthen an existing collection or create a new one with our team of project bibliographers. We assist with project planning, total expected titles, pricing and any other required services, delivering title selection lists, e-book collections or shelf-ready books.

Evidence-Based Acquisition (EBA)

Choose broad or granular access to e-book content from a specific publisher, involve users in the selection of content, and maintain control of making final, informed decisions. EBA programs are available through GOBI with IGI Global, Taylor & Francis and Wiley.

Other Core Services

BookZone

Acquire out-of-print or out-of-stock titles through GOBI. View real-time stock, condition and pricing for hard-to-find titles and easily select the copy that meets your needs.

Spotlight Lists

These curated selection lists feature librarian-recommended e-books and print books. Subscribe, browse what's new, acquire whole lists or select which titles you want.

Metadata Services

Get new titles into circulation faster and ensure maximum discoverability for your books.

- Electronic ordering via EDI & GOBI
- Electronic order responses/status reports
- Customized cataloging & classification support
- RDA compliant & OCLC compatible
- MARC Enrichment — Receive tables of contents, descriptive summaries and author biographies/affiliations for GOBI and local cataloging records
- Electronic invoicing
- Shelf-ready processing

Consortia Support

Build an inclusive collection development plan, ensuring comprehensive coverage, duplication control and a unified workflow across all monographic content, formats and platforms.

Our team is committed to delivering superior customer service. Whether helping develop a new library technical workflow or crafting an integrated approval plan, we have earned the trust and confidence of libraries through a combination of experience, education, knowledge, innovation and partnership with each customer we serve.
