

MEDLINE[®] *Complete*

MEDLINE[®] Complete is the premiere source for top-tier medical journals. As the largest companion to the *MEDLINE[®]* index, *MEDLINE Complete* offers **full text for over 2,200 medical journals**, many of which are available with no embargo, allowing users to access the information as soon as it is published.

In addition to the exceptional quality of the full-text journals found in *MEDLINE Complete*, users have access to an extensive scope of subject matter including biomedicine, pre-clinical science, behavioral sciences, health policy developments, life sciences and much more.

Additional Features:

- **Easy-to-use interface** with basic and advanced search features and searchable cited references
- **Subject Headings** to help users effectively search and retrieve information and follow the structure of the Medical Subject headings (MeSH) used by the National Library of Medicine
- Full text for **over 2,200 medical journals**
- **Full-text coverage** dating back to 1916
- Ongoing full text and deep backfile **coverage for many key journals**
