MEDLINE® Complete is the premiere source for top-tier medical journals. As the largest companion to the MEDLINE® index, MEDLINE Complete offers full text for over 2,200 medical journals, many of which are available with no embargo, allowing users to access the information as soon as it is published.

In addition to the exceptional quality of the full-text journals found in MEDLINE Complete, user have access to an extensive scope of subject matter including biomedicine, pre-clinical science, behavioral sciences, health policy developments, life sciences and much more.

Additional Features:

- Easy-to-use interface with basic and advanced search features and searchable cited references
- Subject Headings to help users effectively search and retrieve information and follow the structure of the Medical Subject headings (MeSH) used by the National Library of Medicine
- Full text for over 2,200 medical journals
- Full-text coverage dating back to 1916
- Ongoing full text and deep backfile coverage for many key journals
