

Data Management Preservation Plan

Automate routine tasks with Perpetua

Replicate data to store in more than one location.
AVOID data loss due to natural disasters and hardware failures

Normalize files by converting to widely adopted formats
AVOID unreadable information

Establish access and retention rules around your data
AVOID compliance and regulatory issues

Allow controlled discovery and access to valued assets
AVOID wasted time searching for resources

Choose the modules that
suit your needs and budget.
Plans can be applied to:

- Historic collections
- Archives
- Research data
- Administrative records
- and more
