Focused & Disciplined
Improve research with subject indexes created by experts.

EBSCO partners with top organizations across disciplines whose experts in the field curate and classify the most relevant materials for researchers. Try them on EBSCOhost® or EBSCO Discovery Service™ for targeted results with links to related content in your library’s collection.
Agriculture and Food Science

**AGRICOLA™**
Containing bibliographic records from the U.S. Department of Agriculture’s National Agricultural Library, AGRICOLA provides millions of citations relating to the field of agriculture to support agricultural research.

**CAB Abstracts®**
Produced by CABI, CAB Abstracts is the leading English-language abstracts information service providing access to the world’s applied life sciences literature.

**FSTA® – Food Science and Technology Abstracts**
This extensive specialized database covers scientific and technological literature relating to food, drink and nutrition. It is managed by a team of expert scientists within IFIS, a not-for-profit organization with an ongoing commitment to learning and development and a reputation for scientific integrity, accuracy and excellence.
Art and Architecture

Avery Index to Architectural Periodicals
Published by the Avery Architectural and Fine Arts Library at Columbia University, this database indexes journal articles on architecture and design, covering subjects such as the history and practice of architecture, landscape architecture, city planning, historic preservation and interior design.

Index to 19th-Century American Art Periodicals
Featuring complete indexing for 42 art journals published in the United States during the 19th century, this resource offers unmatched coverage of available content from the period.
Anthropology, Cultural and Area Studies

**American Bibliography of Slavic and East European Studies**
The electronic version of American Bibliography of Slavic & Eastern European Studies (ABSEES Online) provides information on East-Central Europe, Russia, the Soviet Union and former Soviet republics, with a vast collection of indexed sources published in the United States, Canada and some European countries.

**Anthropological Index Online**
Offering access to hundreds of journals from the British Museum's Anthropology Library, this periodical index covers the fields of physical anthropology, archaeology, cultural ethnography and linguistics.

**Anthropological Literature**
This database provides indexing for the fields of anthropology and archaeology. Specifically, this includes social and cultural anthropology, Old and New World archaeology, physical anthropology and related subjects, with an emphasis on Mesoamerican, Native American and Andean archaeology and ethnology.

**Africa-Wide Information**
Produced by NISC South Africa this unique, multidisciplinary index to research and publications by Africans and about Africa combines dozens of databases sourced from Africa, Europe and North America.
Anthropology, Cultural and Area Studies

**Chicano Database**
Produced by the Ethnic Studies Library at the University of California, Berkeley, this bibliographic index covers a wide range of materials focused on the Mexican-American and Chicano experience, as well as the broader Latino experience of Puerto Ricans, Cuban Americans and Central American immigrants from 1992 onwards.

**Index to Jewish Periodicals**
Intended for students of Jewish thought and others interested in contemporary Jewish and Middle Eastern studies, this index provides a comprehensive guide to English-language articles, book reviews and feature stories devoted to Jewish affairs and published throughout the world.

**Russian Academy of Sciences Bibliographies**
Featuring indexing and abstracting for thousands of publications primarily published in Russia, the former Soviet Union and other Eastern European countries, this unique source covers Slavic studies, social sciences and humanities.
Biology, Life Sciences and Medicine

**Biological Abstracts®**
This collection of bibliographic references for life science and biomedical research literature, covers peer-reviewed article abstracts from U.S. and international journals.

**BIOSIS Previews®**
This expansive index to life sciences and biomedical research includes journals, meetings, books and patents. Produced by Clarivate Analytics, the database covers pre-clinical and experimental research, methods and instrumentation, animal studies and more. It includes BIOSIS indexing and enhanced MeSH disease terms.

**Fish, Fisheries & Aquatic Biodiversity Worldwide**
This database combines bibliographic databases from around the world specializing in ichthyology, fisheries, aquaculture and aquatic and marine biology.

**Global Health**
Produced by CABI, this database was created to ensure that key literature from all sources can be brought to the attention of those working in public health. The database covers all aspects of public health at both international and community levels and includes a wealth of material from other biomedical and life science fields.
Biology, Life Sciences and Medicine

**Waters & Oceans Worldwide**
This database provides indexing and abstracts covering all aspects of water research and treatment. Produced by NISC South Africa, it combines several bibliographic databases from around the world.

**Zoological Records®**
Considered the world’s leading taxonomic reference, and with coverage back to 1864, this database has long acted as the world’s unofficial register of animal names. The broad scope of coverage ranges from biodiversity and the environment to taxonomy and veterinary sciences.

**History of Science, Technology & Medicine**
By integrating four bibliographies — the *Isis Current Bibliography of the History of Science*, the *Current Bibliography in the History of Technology*, the *Bibliografia Italiana di Storia della Scienza* and the *Wellcome Library for the History and Understanding of Medicine* — this resource offers outstanding value for interdisciplinary research.
Education and Gender Studies

**Alternative Press Index**
This bibliographic database contains journal, newspaper and magazine articles from hundreds of international alternative, radical and left periodicals. Covering 1991 to the present, it provides access to emerging theories and practices of social change.

**ERIC (Education Resources Information Center)**
ERIC is an authoritative database of indexed and full-text education literature and resources. Sponsored by the Institute of Education Sciences of the U.S. Department of Education, it is an essential tool for education researchers of all kinds.

**MLA International Bibliography™**
Produced by the Modern Language Association (MLA), the electronic version of the bibliography dates back to the 1920s and contains millions of citations from journals and series, as well as book publishers. Ask about MLA International Biography with Full Text.
Economics and Environment

**EconLit™**
Adhering to the high-quality standards long recognized by subscribers to the *Journal of Economic Literature* (JEL), this authoritative index from the American Economic Association is a reliable source for economic research citations and abstracts. Ask about *EconLit with Full Text*.

**GeoRef**
Produced by the American Geosciences Institute, this comprehensive geosciences database contains bibliographic records for geosciences literature from around the world.

**Petroleum Abstracts TULSA® Database**
Stay current with *Petroleum Abstracts TULSA Database*, the petroleum industry’s preeminent information resource for coverage of exploration and production-related scientific and technical knowledge.
Mathematics, Technology and Engineering

Inspec®
Created by the Institution of Engineering and Technology, this leading bibliographic database provides abstracts and indexing to the world’s scientific and technical papers in physics, electrical engineering, electronics, communications, control engineering, computing, information technology, manufacturing, production and mechanical engineering.

MathSciNet®
This electronic publication of the American Mathematical Society (AMS) offers access to a carefully maintained and easily searchable database of reviews, abstracts and bibliographic information for mathematical sciences literature.

Polymer Library
This is the world’s largest abstracts database dedicated to plastics, rubber, polymer composites and adhesives. Compiled and written by the expert team at Smithers Rapra, this database contains information from journals, conference proceedings, books and reports.
Psychology, Sociology and Social Work

**Health and Psychosocial Instruments (HaPI)**
Produced by Behavioral Measurement Database Services, this bibliographic database is abstracted from hundreds of leading journals covering health and psychosocial sciences. It provides information about behavioral measurement instruments, including those from Industrial Organizational Behavior and Education.

**Mental Measurements Yearbook™**
Produced by the Buros Center for Testing at the University of Nebraska, this database provides a comprehensive guide to contemporary testing instruments. Designed for an audience ranging from novice test consumers to experienced professionals, the series contains information for evaluating test products in psychology, education, business and leadership.

**PsycINFO®**
This database is the world’s largest resource devoted to peer-reviewed literature in behavioral science and mental health. Produced by the American Psychological Association, it is an indispensable tool for the discovery of global scholarly research.
Psychology, Sociology and Social Work

**PSYNDEX: Literature and Audiovisual Media with PSYNDEX Tests**
This database provides comprehensive abstracts of psychological literature, audiovisual media, intervention programs and tests from German-speaking countries.

**Social Work Abstracts™**
Produced by the National Association of Social Workers (NASW), this database provides indexing and abstracts for journals dealing with all aspects of the social work field, including theory and practice, areas of service and social issues and problems.
Music and Performing Arts

*Index to Printed Music*
This invaluable high-quality index for music researchers and students is the only electronic resource for finding individual pieces of music published in standard scholarly editions, series and sets from ancient Greek times to the present.

*RILM Abstracts of Music Literature*
Produced by Répertoire International de Littérature Musicale, this comprehensive music bibliography features citations, abstracts and subject indexing. It facilitates both focused research and browsing for readers of all levels. From hip hop to Händel, from ethnomusicology to music therapy, from elementary music education to advanced music theory, RILM is the first stop for the researcher who wants clear, verified bibliographic information.

*RIPM Abstracts of Music Literature 1967-Present*
Produced by Répertoire International de Littérature Musicale, this extensive music bibliography features citations, abstracts and subject indexing. With coverage spanning from 1967 to the present, it facilitates both focused research and browsing for readers of all levels.
Music and Performing Arts

RIPM Retrospective Index to Music Periodicals
Published under the auspices of the International Musicological Society and the International Association of Music Libraries, Archives and Documentation Centres, this database provides detailed analyses of writings on musical history and culture between 1760 and 1966. It includes exclusive content provided by internationally recognized scholars and editors.

RISM Series A/II: Music Manuscripts after 1600
This database is an annotated index of music manuscripts held in libraries, archives, monasteries, schools and private collections around the world. It is published by the Répertoire International des Sources Musicale (International Inventory of Musical Sources), an international non-profit organization that aims to document the world's musical sources from the earliest times.
Allied and Complementary Medicine Database (AMED)

This bibliographic database is designed for physicians, therapists, medical researchers and clinicians looking to learn more about alternative treatments. Many of the journals included in AMED are not indexed by other biomedical sources. The content provided in AMED is produced by the Health Care Information Service of the British Library, which provides a renowned collection of scientific, technical and medical (STM) information.

International Pharmaceutical Abstracts (IPA)

Produced by Clarivate Analytics, this comprehensive database provides indexing and abstracts for pharmaceutical and medical journals published worldwide. It is essential to anyone interested in keeping abreast of today’s health-related drug literature. A unique feature of IPA’s clinical studies abstracts is the inclusion of the study design, number of patients, dosage, dosage forms and dosage schedule.
Political Science, Law and Criminal Justice

*International Political Science Abstracts*

International Political Science Abstracts (IPSA), produced by the International Political Science Association, provides non-evaluative abstracts of articles in the field of political science published in journals and yearbooks around the world.

*National Criminal Justice Research Abstracts*

This collection offers summaries of important law enforcement and criminal justice publications including books, government reports, research reports, journals and unpublished research. It serves as a valuable research tool for criminal justice professionals, researchers and policy makers.

*NTIS*

This database contains more than two million descriptive summaries of papers and titles that NTIS (National Technical Information Service) has received from the government since 1964. With more than 60,000 records added on an annual basis, NTIS offers the latest research sponsored by the United States and some international governments, providing users with one of the most distinguished resources available.
Religion and Philosophy

ATLA Religion Database®
This database is an essential resource for religious and theological studies, providing bibliographic records covering topics such as biblical studies, world religions, church history and religion in social issues. Indexed journals are selected for inclusion according to their scholarly merit and scope. Ask about ATLA Religion Database® with ATLA Serials Plus™.

Christian Periodicals Index®
Prominent subjects in these journals include religion, theology, biblical studies and pastoral theology. However, this index also provides indexing for journals which put forth a Christian worldview from other disciplines, including science, literature, medicine, music, philosophy, history, sociology and education.

Index Islamicus™
Index Islamicus features an unmatched breadth of content on the Muslim existence, containing material published by Western orientalists, scholars from the fields of social science and humanities, and Muslims. Spanning from 1906 to the present, coverage includes information on Muslims from the Middle East, Asia, Africa and other areas where Muslim minorities are found.
Religion and Philosophy

New Testament Abstracts Online
A product of a partnership between the American Theological Library Association (ATLA) and Boston College, this database is an indispensable research and bibliographic aid for scholars, librarians, clergy and students of the New Testament and its historical milieu.

Old Testament Abstracts Online
A product of a partnership between the American Theological Library Association (ATLA) and the Catholic Biblical Association, this database features indexing and abstracts for journal articles, monographs, multi-author works and software related to Old Testament studies.

The Philosopher’s Index
Considered the most thorough index of journal literature on the subject, The Philosopher’s Index features author-written abstracts covering scholarly research published in journals and books, including contributions to anthologies and book reviews. The publications covered in this comprehensive database hail from 139 countries and appear in 37 languages. Ask about The Philosopher’s Index with Full Text.
Expert subject indexes enable serious researchers to conduct a thorough review of literature with speed and efficiency.
