

START

Stacks

Create a best in-class library website.

Don't take any risks when it comes to your library website.

Manage and create an effective library website through a user friendly web-based content management system (CMS).

Create the best research experience for users

For users, conducting research is like a game of chance. From navigating different platforms or clunky library websites, to authentication challenges, to sifting through search results to find the right information—these challenges may impede successful research and the value of your library.

Save time in creating your library website with a turnkey and responsive CMS providing an optimal experience across devices.

Never worry about security issues, expensive upgrades or hosting by utilizing the Stacks subscription service benefits.

EBSCO
Discovery Service

Quickly connect researchers to relevant information - every time.
